

Digestive Health Physicians Association: Independent GI Practices, Improving Patient Lives

DHPA is the only state or national advocacy organization focused exclusively on the challenges and opportunities facing independent GI physician practices and the patients we serve.

Since 2014, DHPA has been successfully advocating for policies that promote and protect the high quality, cost-efficient care that is provided to patients in the independent GI practice setting.

DHPA MEMBERS 2014

11 PRACTICES | **11** STATES | **406** PHYSICIANS

DHPA MEMBERS 2019

95 PRACTICES | **38** STATES | **2200+** PHYSICIANS

**THE VOICE OF
INDEPENDENT GI ON
CAPITOL HILL** | **MORE THAN
500 VISITS
WITH CONGRESSIONAL
OFFICES**

Successfully opposed efforts to eliminate protection for in-office pathology services under the federal physician self-referral (Stark) law (commissioned study by Milliman analyzing utilization and cost of pathology services).

Secured enactment of the Electronic Health Fairness Act, which eliminates meaningful use penalties imposed on physicians providing care in ambulatory surgery centers.

Successfully blocked implementation of proposed payment cuts to Medicare Part B drugs administered in GI practices (more than 1800 calls made and emails sent to Congressional offices).

Led a coalition of physician organizations in supporting development of the Medicare Care Coordination Improvement Act of 2019 (S. 966, H.R. 2282) to enable independent physicians to participate more fully in value-based payment models incentivized by MACRA.

STATE HEALTH POLICY ACTION FUND

\$100,000 in grant funding awarded to support member practice engagement on key state policy issues impacting independent GI practices.

CALIFORNIA STATE LEGISLATURE

Supported successful opposition to legislation that would have eliminated in-office pathology and advanced imaging services critical to independent GI practices.

MARYLAND & NEW JERSEY STATE LEGISLATURES

Supported successful efforts to modernize those states' self-referral laws to enable independent GI practices to participate in alternative payment models.

2020 POLICY PRIORITIES

Champion the Medicare Care Coordination Improvement Act (S. 966, H.R. 2282), bipartisan legislation to modernize the Stark Law to enable physicians to participate more fully in value-based payment models incentivized by MACRA.

Advocate for CMS and the HHS Office of Inspector General to finalize reforms to the Stark Law and Anti-Kickback Statute regulations that will enable independent GI practices to participate in value-based arrangements.

Support the Safe Step Act (H.R. 2279), bipartisan legislation to reform step therapy requirements and give providers increased autonomy in determining the care that is best for their patients.

Advocate for the Removing Barriers to Colorectal Cancer Screening Act of 2019 (S. 668, H.R. 1570), bipartisan legislation that will help ensure that all patients receive the appropriate screening and diagnostic treatment for colorectal cancer.
