

COLORECTAL CANCER: AMIAT RISK?

www.dhpassociation.com

Colorectal Cancer (CRC) Disparities in the U.S.

50 T Colorectal Cancer Incidence (2015-2019) and Mortality (2016-2020) Rates by Ethnicity/Race, U.S.

Did You Know?

Disparities are driven by socioeconomic status and differences in access to early detection and treatment²

American Indians and Alaska Natives are the only groups for which CRC death rates are not declining²

Blacks and Hispanics are less likely to get prompt follow up after abnormal screening results and more likely to be diagnosed with late stage cancer^{2,3}

CRC rates in Japanese men are 23% higher than in Non-Hispanic White men²

When diagnosed at an early stage, survival rates are similar across all racial and ethnic groups³

What Should I Do?

Ask your primary care or GI physician about available CRC screening options⁴

Schedule a colonoscopy or stool-based screening test at age 45⁵
